

## Update on Announcement of IIW Election Results 2020

Based upon UK Government's guidelines, those that can work from home should continue to do so and the nationwide lockdown continues, with some regional variations in Wales, Scotland and Northern Ireland. The impact of this is that both IIW HQ and our auditors / independent adjudicators of the election count, RPG, have to comply and our offices stay closed.

The previous estimate of the election results being ready to announce around about 20<sup>th</sup> May 2020, will now not be achievable. The situation is being monitored and reviewed by IIW and RPG on a regular basis. Once there has been a change in the situation and IIW can plan a move forward, it will be communicated to all via email, through the IIW website and through social media.

The Executive Committee is very appreciative of your patience in waiting for the election results, but as they are sure that you will all understand the decisions are necessary to protect our office staff and our suppliers, to comply with Government guidance and to ensure the independence and integrity of the IIW Election process.

IIW Administration

15<sup>th</sup> May 2020.
